AUTHORIZATION FOR TREATMENT

Medical care is a patient care service in response to a wide range of medical care needs of patients of all ages regardless of gender, color, race, creed, national origin or disability, five days a week. The Hurtt Family Health Clinic uses evidence-based practices to make decisions about treatment and in order to provide high quality healthcare for all patients.
The purpose of medical care is:

All procedures will be thoroughly explained to you before you are asked to perform them. You are expected to cooperate fully with the examination and stop any test or procedure before experiencing any increase in your current level of pain or discomfort. There are certain inherent risks with medical care; if you have any concerns about your proposed treatment as described by your provider please let them know prior to the examination or procedure. The attending physician or provider will take every precaution to ensure that you are protected from any potentially hazardous situation. You will never be forced to perform any procedure that you do not wish to perform. ADDITIONAL CONSENTS

APPLICABLE LEGAL DOCUMENTS FOR MINORS

For all minor patients (under 18 years of age), legal guardians will be asked to show documentation to prove that a legal relationship exists. This is for both the safety of the child and guardian and to ensure that the legally appointed parent or guardian is responsible for making medical decisions on behalf of the minor. Applicable legal documents pertaining to custody, divorce, separation, adoption or name change of a parent or child are required.

*All minors must have a birth certificate on file before being seen by a provider. *

LIMITED CONSERVATORSHIP

Limited conservatorships are for adults with developmental disabilities who are unable to make medical decision on their own behalf. If a patient is unable to make medical decisions on their own behalf due to a developmental disability, legal documentation appointing the conservator will be required. Proof of conservatorship must be presented at time of registration and before the patient can be seen by a provider. Documentation must include the right of the conservator to consent for medical treatment on behalf of the patient.

CAIR Notice

Immunizations or 'shots' prevent serious diseases. Tuberculosis (TB) screening tests help to determine if you may have TB infection and can be required for school or work. Keeping track of shots/TB tests you have received can be hard. It's your right to limit who is able to access your records in the California Immunization Registry (CAIR).
